

## Soft Chewlery

Low pile soft towel-ling material gives comfort for the mouth. These chewlery are machine washable.

Washing the chewlery in a mesh delicates bag may help to extend the wear. The soft chewlery come in either the elephant or the star. Use with adult supervision. Sold individually.

## Star Chewlery

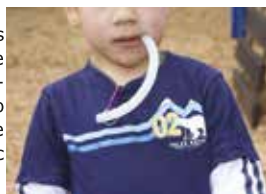

#383

## Elephant Chewlery

#382

## Chewnoodle

Made with non-toxic silicone, this oral tool is 200mm x 13mm diameter. The Chewnoodle is attached by a ring and a lightweight aluminium caribena that can be clipped onto shirts, straps etc. for easy access. Available in Bumpy (textured surface) or Basic (smooth surface).

## Basic

#482

## Bumpy

#483

## Super Chewnoodle

Same design as the Chewnoodle, but stronger (pictured far right). This oral motor tool is solid, rather than a tube. It is textured with the same bumps as the Chewnoodle Bumpy. Great for those who require something harder to bite. Always use with adult supervision. #562

## Jigglers

Low-intensity vibration Jigglers™ are a must! Oral facial massager. Requires one "AA" battery (not included). Can be cleaned with 10 parts water to 1 part bleach. Use with adult supervision. Sold individually.

## Elephant and Gator #525

## Parrot and Kangaroo #590

## Hover Ball Pipe- Wooden

Gently blow the end of the wooden pipe to enable the polystyrene ball to hover in the air. A whole heap of fun, and great for developing breath control. Wooden pipe approximately 15cm long. Pipe comes with 2 polystyrene balls. #461

## Jaw Rehabilitation Programme

The Jaw Rehabilitation Program is a patented step-by-step series of Goals and Objectives designed to develop biting and chewing skills.

The Jaw Rehabilitation Program offers a sequenced progression of oral motor treatment exercises to initiate and strengthen mandibular function needed for successful mastication skill.

Progress can be easily documented by recording the last short-term objective achieved by the patient at each session.

3 red and 3 yellow Chewy Tubes included with the programme. #363

## Mega Chewlery

Mega Chewlery necklaces and bracelets are double the strength and thickness of Chewlery. Necklace 16cm diameter and bracelets 6cm diameter.

These stretch just like regular Chewlery. Use with adult supervision. Sold individually.

## Mega Chewlery Necklace

#583

## Mega Chewlery Bracelet

#584

## Chewlery

Chewlery is a great way to keep kids from chewing on their clothes, while letting them work through their chewing tendencies. It is also great for oral-motor stimulating activities. Use with adult supervision. Non-toxic, colourful, plastic jewellery that "streeeetches". The necklace is 16cm diameter and the bracelet is 6cm diameter. Sold individually. Colours vary.

### Sound and Light Projector

Create a calming environment with this Sound and Light Projector. It transforms your room into a constantly changing array of colourful stars and plays calming sounds. Lights and sounds can be switched off independently.

7 nature sounds to choose from: Ocean surf, bird song, rainfall, birds at dawn, babbling brook, summer night, and heart beat. Has a volume control and switches off automatically after 30 minutes.

The Sound and Light Projector can also be used as a speaker for a computer, MP3, or smart phone. Requires 3 x AA batteries (not included). Can be powered externally with an appropriate adaptor (not included). Stands approximately 11cm tall. #609

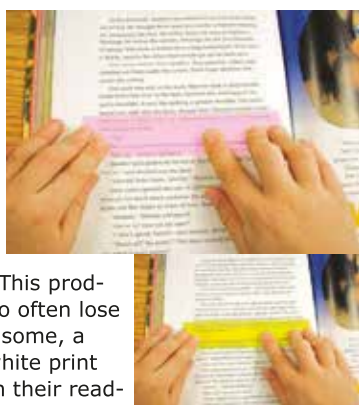

### Dual Colour Liquid Timer

Watch the dual coloured liquid drops float gracefully to the bottom of the timer. Time approximately one minute. #608

### Eye Lighter

The Eye Lighter is a 6 inch long transparent plastic high-lighter. The design of the Eye Lighter allows readers to underline the sentence they are reading and allows them to track 1, 2 or 3 lines at a time which is important as fluency and speed increases. This product can be great for those who often lose their place while reading. For some, a colour overlay on black and white print can make a huge difference in their reading, comprehension and fluency.

The Eye Lighter is available in six colours: pink, yellow, blue, green, purple, and orange. Which colour you choose will depend on the reader. The best way is to try each colour to see which one the eyes prefer.

There are 2 edges on the Eye Lighter, one for larger print primary readers, and the other for paperback.

Set of 6 Eye Lighters (one of each colour) #656

### Find It!

This game contains over 40 hidden items for you to find, conveniently listed on the top of the game. SPIN IT, TWIST IT, SHAKE IT! This is an exciting game, with enclosed pieces that will never get lost! Can you find the dice, rubber band, macaroni, safety pin, or clothes peg in this contained adventure? Be the first to find the hidden penny. This mesmerizing game is enjoyed by all ages. For one or more players.

### Find It! (Original) #434

### Find It! (Beach) #463

### Liquid Drop Timer

Dual Coloured drops of liquid zig-zag to the bottom of the timer. Measures approximately 13cm tall. Time approximately 3 minutes (although this can vary). #556

### Wheel Timer

Coloured liquid turns the wheel at the bottom of the timer. A nice visual tool. Time, approximately 3 minutes. #405

### Mini Liquid Timer

Droplets of colour fall to the bottom of the timer. The 'hour glass' mini liquid timer stands 7cm tall. Time lasts approximately 2 minutes. #487

### Mini Twist

Hang this colourful Mini Twist and watch it spin in the breeze. Made with weather-proof polyester fabric. Can be used indoors or outdoors. A great visual tool. Measures approximately 13cm x 70cm. #511

### Fibre Optic Light

This Fibre Optic Light is a great visual and tactile tool. The LED light engine measures approximately 16 x 9 x 4cm, and it comes with 20 x 3 metre fibre optic strands. Each strand contains 3 x 75mm fibres inside thin flexible PVC tubing.

The optic strands carry and emit light, but not electricity. The light can be controlled by remote (or by button on the light engine), allowing you to change the colour of the light, and the phasing of colours.

**Single (1 x 16 Watt Light)** #650

**Twin (2 x 16 Watt Light)**- pictured below #711

### Physio Gymnic Balls

These extra large physio balls are great for physiotherapy or group activities/games. Maximum recommended weight 150kg

Ball sizes:

**85cm**

**95cm**

**120cm**

### Trigger Roll

An inflatable cylinder with sensory bumps on its surface. The Trigger Roll can be used in a number of different ways including trigger point massage and for stretching. Measures 16cm diameter and 30cm in length. Recommended weight less than 120kg. #784

### Hopper Balls

These Hopper Balls are a good quality ball designed for sitting and bouncing on. Simply hold the handle while straddling the ball and bounce. Ensure the surface for bouncing on is free of sharp objects that may puncture.

#### Recommended weights

**45cm diameter-** up to 45kg #738

**55cm diameter-** up to 70kg #739

**66cm diameter-** up to 90kg #740

### Disc 'O' Sport

A large inflatable cushion. Great for sitting, standing, or lying on. Small textured bumps on one side and slightly raised ridged lines on the other. 55cm diameter. Maximum weight capacity 200kg. #420

### Bilibo

This versatile toy is shaped like a turtle shell, and can be used for a number of different activities. Sit and rock/spin in it, fill with sand, use in water play, upturn and stand on it.

Colour may vary from that shown. #634

0800 FIDGET (0800 34 34 38)

Page 17

**Pedal Exerciser**

This fold-up pedal exerciser is pre-assembled, and ready to go. Just add the tension knob. It folds for easy storage. The portable exercisers are great for both the upper and lower body. They can be used on the floor for foot pedalling, or on the tabletop for hand pedalling. Keep exerciser stable even when patient has little muscle control. Wrap around adjustable foot straps for use with or without shoes. Adjustable tension knob allows for easy changes in pedalling difficulty level. Pedal forwards or backwards. The pedal exerciser is ideal for rehabilitation and for keeping physically active. Care and supervision may be required to ensure safe use. #862

**Scooter Board**

Varnished plywood scooter board on 4 ball bearing castors. Can be used in sitting, kneeling, or prone position to develop coordination and gross motor skills. Manoeuvres easily. Dimensions of the board: Length 60.5cm, Width 24cm (front) and 40.5cm (back). Available with and without carpet. Carpeted board reduces slipping.

**Without carpet #250**

**With carpet #291**

**Activity Ball**

A large transparent ball with small coloured balls inside. 50cm diameter. #422

**Opti Ball**

A good quality large transparent ball. Great for developing gross motor skills, balance and core strength. 55cm diameter. Maximum weight capacity 300kg. #424

**Therasensory Ball**

A large ball with bumps on the surface. A great tactile and gross motor tool in one.

65cm diameter #451

100cm diameter #566

**Sens O Roll**

A physio roll, but with a bumpy textured surface. Great for developing gross motor and balance skills while receiving tactile input. 50cm Diameter, 80cm length. #425

**Physio Activity Roll**

A transparent physio roll with small coloured balls inside. 55cm diameter and 90cm length. #421

**Physio Roll**

The Physio Roll is an inflatable "peanut" shaped therapy tool. It is great for developing gross motor skills, balance, coordination, and stretching large muscle groups. This is a very versatile piece of equipment.

**Blue Physio Roll-** 30cm diameter, 50cm length. #293

**Red Physio Roll-** 40cm diameter, 65cm length. #423

**Yellow Physio Roll-** 55cm diameter, 90cm length. #591

## Wobble Ball

The Wobble Ball can be used for vestibular stimulation, core training, and general balance exercises. You can adjust the level of difficulty by adding or removing air from the Wobble Ball. Use the dome curved-side down as a seat, rocker board, or to kneel on for vestibular activities. With the flat side down, use the Wobble Ball for balance, core and strengthening exercises. Diameter of base approximately 50cm. Height will depend on how much air is pumped into Wobble ball (approximately 18cm or more). #819

## Disc 'O' Sit

The Disc 'O' Sit is an inflatable dynamic cushion which, when placed on a seat, mimics both the movement and shape of a ball. It can also be used on the floor for balance training, proprioception and strengthening of the lower extremities. The surface is textured with small bumps.

The Disc 'O' Sit measures 39cm in diameter. The Disc 'O' Sit Junior measures 32cm in diameter. Colour may vary from that shown.

**Disc 'O' Sit Junior** #238

**Disc 'O' Sit Senior** #237

**Disc 'O' Sit Senior Cover** #452

## Sit 'n' Gym

The sit 'n' gym is a ball with stabilising feet, allowing the ball to stay where it is put. Sitting on this ball helps to encourage good sitting posture and can help to develop core strength.

**35cm diameter** #449

**45cm diameter** #450

**55cm Diameter** #833

## Rody Max

A bouncy ride-on horse. Great for proprioceptive and vestibular input. This sturdy Gymnic product measures approximately 66cm (length), 66cm (height-front foot to ears), and 95cm (circumference). Maximum weight 100kg. #840

## Movin' Sit

The Movin' sit Junior is a wedge-shaped air cushion, which helps to achieve an upright sitting posture and strengthen postural support muscles in the trunk. The wedge shape encourages a seated posture with a forward pelvic position and good upper trunk posture and alignment. The surface is textured with small bumps. Great for sitting at desks or computers.

The Movin' sit Junior fits in most primary school chairs. Measures 26cm x 26cm. The Movin' sit Senior measures 36cm x 36cm.

**Movin' Sit Junior** #235

**Movin' Sit Senior** #236

**Movin' Sit Senior cover** #453

## Wobble Board

This board measures 40cm in diameter, and is great for developing balance and strength. Raised approximately 6cm from ground. #726

## Slope Board

This acrylic or Plexiglas slope board measures 38cm (width), 35cm (depth), 11cm (height), and weighs approximately 1.2kg. It features a clip at the top to hold paper in place, and non-slip rubber 'feet' underneath to help prevent the board from slipping. #737

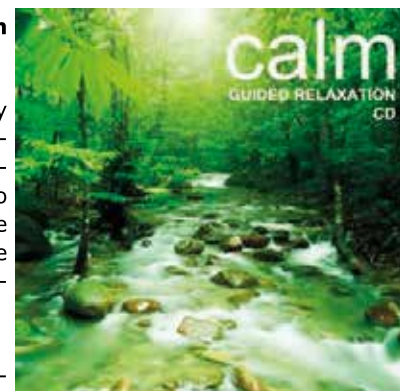

**Supersafe Bell Ball**

This 24cm Bell Ball has several highly audible bells inside, which makes it loud enough to track with your eyes closed or blindfolded. Ball made from finest phthalate-free materials, offers super-soft and grippy tactile yellow surface. Sold individually. #856

**Calm— Guided Relaxation CD**

This guided relaxation CD by Sharon Thomas, an Occupational Therapist in New Zealand, is great for helping to relax the mind and body. The relaxation instructions are recorded with tranquil background music.

The following tracks are recorded on the CD: (1) Introduction (2) Breath Awareness (3) Progressive Muscle Relaxation (4) Beach Visualisation (5) Forest Visualisation. #516

**Ocean Drum**

This 25cm drum has tiny steel balls inside, which when moved gently, will make soft wave-like sounds. #720

**Sound and Light Projector**

Create a calming environment with this Sound and Light Projector. It transforms your room into a constantly changing array of colourful stars and plays calming sounds. Lights and sounds can be switched off independently.

7 nature sounds to choose from: Ocean surf, bird song, rainfall, birds at dawn, babbling brook, summer night, and heart beat. Has a volume control and switches off automatically after 30 minutes.

The Sound and Light Projector can also be used as a speaker for a computer, MP3, or smart phone. Requires 3 x AA batteries (not included). Can be powered externally with an appropriate adaptor (not included). Stands approximately 11cm tall. #609

**Jinglin' Ball**

A transparent ball with bells inside. Great for individuals with visual impairment, or as an added sensory (sound and visual) components to your ball activities. Approximately 55cm diameter. #271

**Ear Muffs**

Ideal for those who are sensitive to environmental noise, these comfortable ear muffs can provide the serenity of a quieter sound environment. These class 4 ear muffs also provide protection for the ears from damaging sounds when required. They weigh only 190g. Suitable for ages 6 months to 10 years. Available in pink, blue, silver, and green camo. #558

**Jingle Bands**

Four large jingle bells are securely riveted onto a 24cm long strap with a Velcro fastener. The jingle bells can be held by the strap, or worn on the wrist or the ankle. The bells have a fantastic "ringing" sound to them. A great sound maker and fine/gross motor tool. Sold individually. #306

**Small Egg Shakers**

These small Woodstock egg shakers are easily held in the palm of the hand. A great sound maker. Height of egg shaker approximately 6.5cm. Each Egg Shaker sold individually. #313

## Bene Feet Mats

The Bene-Foot Mat has long flexible "spikes" which graduate in size from small at the front and back to tall spikes in the middle. The mat can be used as one 28cm x 23cm mat of 2 x 14cm x 23 cm mats. The Bene-Foot mat is great for improving circulation in the feet, massage, and for sensory input. Use the Bene-Foot Mat either in a standing or seated position. Clean with warm water and mild soap. #785

## Microwaveable Putty

Microwave this putty between 1 and 2 minutes for warm hand therapy. Weighs approximately 113g and comes in 2 different strengths. Do not over heat.

Blue (Firm)	#864
Orange (Soft)	#865

## Spikey Hand Massager

A 'torpedo' shaped spikey massager that fits nicely in the hand. Measures approximately 5cm x 11cm. This massager is hard to the touch and is inflexible. A great tactile tool. #643

## Giant Yuk-E-Balls

It's hard to resist the feel of Giant Yuk-E-Balls which have so many uses. These are highly tactile, fluid-filled PVC balls with smaller balls inside. A tactile and weighted product in one.

- Red (500g, 11cm diameter)** #358
- Yellow (1kg, 13cm diameter)** #359
- Blue (1.5kg, 16.5cm diameter)** #360
- Green (2kg, 18cm diameter)** #361
- Violet (3kg, 20cm diameter)** #362

## Gel E Fidget

A squeezable, pinchable fidget small enough to fit it in the pocket. #613

## Vibrating Pen

A battery operated vibrating pen with five different ink colours. requires one 'AA' battery. Battery not included. #427

## Hand Held Massager

This vibrating Hand Held Massager is great for massaging all areas of the body to help relieve stress, and tension, or to provide some proprioceptive input. Requires 3 x AAA batteries.

#803

## Grabits Tact-L Pack (set of 3)

Set of 3 transparent Grabits, each uniquely filled to provide tactile and visual stimulation. Also provides weight input and auditory feedback as well. The handle allows for easy grasp. Each Grabit has materials inside to give a variety of different sensations. The set includes one each of the following:

- 1 x Multicoloured 10mm PVC balls in gel
- 1 x Primary coloured pellets and
- 1 x Bells #339

0800 FIDGET (0800 34 34 38)

Page 21

**Therapressure Brush**

The Wilbarger Therapressure Brush is the brush recommended for use in the Brushing Programme. This brush is a fantastic tactile and pressure tool. Available individually or in sets.

<b>Individual</b>	#595
<b>Set 6</b>	#596
<b>Set 12</b>	#597

**Mudball (set 3)**

Sensory Mud Ball (set of 3) can be used as a fidget, a finger strengthener or for an abundance of communication opportunities describing similarities and differences. The balls feature three unique textures on the inside and the outside. Each interior is filled with large beads, small beads or sand and each exterior has a bumpy, pointy or smooth textured surface. In every ball, there is a hidden snake for an added surprise to get those fingers working. #759

**Spikey Ring**

A flexible ring with spikes. The Spikey Ring is easily manipulated and gives good tactile feedback. 17cm diameter. Colour may vary from that shown. Sold individually. #418

**Activ-Roll**

A firm but squeezable cylinder with small spikes on it. Perfect for massaging feet, hands, back and legs. A great tactile tool. The Activ-Roll is approximately 15cm in length and 6cm diameter. Sold individually. #416

**Beauty Reflex Balls (soft)**

A pair of good quality squeezable spikey balls. Ideal for massaging hands, feet and back. Great for squeezing in the hand and providing tactile input. #417

**Therasensory Ball**

A large ball with bumps on the surface. A great tactile and gross motor tool in one.

65cm diameter #451

100cm diameter #566

**Sens O Roll**

A physio roll, but with a bumpy textured surface. Great for developing gross motor and balance skills while receiving tactile input. 50cm Diameter, 80cm length. #425

## Bongers

Bongers are a hand held percussive massaging tool. They have a wooden handle on one end, a rubber ball on the other end, joined by a flexible metal piece in the middle. These are a great tool for stress relief, proprioceptive input, and 'body tapping' in mindfulness exercises. Bongers come in a pair. Use one, or both together. #758

## Ice Massager

The Ice Massager is an ergonomically designed rubber 'bulb' that holds liquid. A stainless steel ball on the end to allows for cold to be applied to targeted areas of the body. The cold reservoir 'bulb' enables retention of the cold temperature for an extended period of time without mess. Store the Ice Massager in the freezer. It warms up quickly, place in warm water only. Do not boil, do not microwave, and do not heat in oven. Sold individually. #712

## Kinetic Sand

Kinetic sand not only holds its shape when moulded, but it can also slowly fall through the fingers. This product contains 98% sand, with a binder that helps keep its shape during play. Ideal for indoor use. A fantastic fine motor activity. Gluten free, Dust free, and easy clean up. Kinetic sand is available in 1kg, 2.5kg, and 5kg packages.

**1kg** #688

**2.5kg** #691

**5kg** #692

## Vibrating Snake

The vibrating snake vibrates along its entire length. It can be wound around the neck, back, wrist, hips, or wherever it is required. It features 2 vibration speeds and switches on at the end of the caps. Requires 2 x "C" batteries (not included), and measure approximately 75cm in length. #352

**Vibrating Snake-Switch Adapted-** #746

## Theraputty

This Antimicrobial Theraputty is a colour-coded hand exercise material, where each colour putty has a different consistency (or strength). Theraputty is non greasy to the touch. Theraputty is gluten, casein and latex free. Each tub contains 113g of Theraputty. Sold individually or as a set of 5 (one of each colour). Available in Tan (xx-soft), Yellow (x-soft), Red (soft), Green (medium), and Blue (firm). Black not available.

**113g** #615

**Set of 5 (one of each colour)** #614

## Jigglers

Low-intensity vibration Jigglers™ are a must! Oral facial massager. Requires one "AA" battery (not included). Can be cleaned with 10 parts water to 1 part bleach. Use with adult supervision. Sold individually.

**Elephant and Gator** #525

**Gator** #526

**Parrot and Kangaroo** #590

### Essential oils

These essential oils can be used in burners or diffusers. They are undiluted oils and come in 10ml bottles. Available in Lavender, Bergamot, Grapefruit, and Orange. Should you require other essential oils or larger quantities, please feel free to contact us.

<b>Grapefruit</b>	#621
<b>Orange</b>	#620
<b>Bergamot</b>	#619
<b>Lavender</b>	#618

### Apothecary Sleep Range

This range utilises the calming benefits of Neroli, Chamomile, and Lavender to help promote calm and relaxation

**Sleep Room and Pillow Mist-** Enjoy a relaxing aromatherapy experience to scent your space and pillows with this calming "sleep easy" blend. Provides a restful and peaceful slumber. Spray a light mist over pillows and sheets. 200ml.

**Sleep Body & Massage Oil-** Specially formulated with pure Sweet Almond oil and locally grown Olive and Macadamia oil for massage or as a daily treatment for tired and dry skin. Relax and unwind by adding to a warm bath and enjoy the aromatherapy benefits. 200ml

**Sleep Body Lotion-** Soothe and relax your senses and skin with this calming aromatherapy blend. This rich moisturising body lotion contains Manuka Honey, Olive and Macadamia oil to nourish and hydrate dry and tired skin. 200ml.

**Sleep Balm-** Apply this calming balm to your pulse points and under your nose for some calm and relaxation.

### Ultrasonic Aromatherapy Diffuser

This electric diffuser produces vibrations at a high frequency turning the water and essential oil into a fine mist. No heating element is used, making this diffuser a much safer option in clinical and home settings.

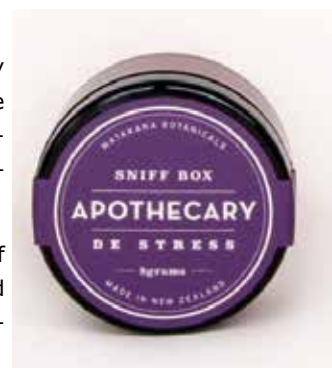

The diffuser also has soft light, which phases into different colours. This is optional, as the diffuser can also be used without light. Measures approximately 20cm in height. Sold individually. #766

### Sniff Boxes

Sniff boxes are a great way to receive the benefits of essential oils. The unique essential oil blends have been infused into the special "Aroma Beads" located in the base of the sniff box. Simply open the lid, place directly under the nose and take a few deep breaths.

These 8 gram boxes fit easily into pockets or handbags to be on hand when required. Available in Sleep, De stress, Recovery, Focus, and Energise. #586

**De Stress-** A relaxing blend of Ylang Ylang, Majoram, and Vitver to ease tension and restore balance.

**Sleep-** A Blend of neroli, lavender, and chamomile to soothe, comfort, and calm

**Recovery-** Rose, Majoram, olibanum, and black pepper.

**Focus-** A blend of Bergamot, lemon, and cinnamon essential oils.

**Energise-** Cedarwood, eucalyptus, pine and olibanum essential oils. To promote energy

**Set of 5 Sniff Boxes** (one of each scent) #644

## Scented Theraputty

This set of scented Theraputty is graded from xx soft to medium strength. The added bonus is that the putty smells great! Each set of 4 contains the following: Tan (vanilla) xx soft, Yellow (banana) x soft, Red (cherry) soft, and Green (apple) medium. Each pot of putty weighs approximately 56 grams. #863

## Dream Chair

This inflatable Dream Chair is created with vinyl that is soft and cozy to the touch. The triangle-shaped chair can be flipped over for an even more relaxed position. The back height measures approximately 53cm and the seat height is approximately 30cm. Ideal for children ages 4 to 9. #872

## Exercise Band- No Latex

No latex resistance band is great for strengthening and providing proprioceptive input. Packaged in 1.2 metre lengths, this exercise band is available in five levels of resistance. Red (light), Green (medium), Blue (heavy), Black (x-heavy), and Silver (xx-heavy). Sold individually.

**Red** #632

**Green** #631

**Blue** #630

**Black** #699

**Silver** #700

## Peapods

The Inflatable PeaPod is a durable, inflatable space made with super-strong vinyl. They have tough triple-welded seams for added strength. Most children can get in the "pod" themselves, applying deep, even pressure to many sensitive areas of the body. Some children like to gently rock side-to-side, for that perfect "cocooning-calm." The velvety "pod" surface is made with comfortable flocked vinyl. Surface-washable.

**Small** (child up to 110cm tall) #855

**Medium** (child up to 140cm tall) #854

**X-Large** (length of peapod 2 metres) #853

## Bongers

Bongers are a hand held percussive massaging tool. They have a wooden handle on one end, a rubber ball on the other end, joined by a flexible metal piece in the middle. These are a great tool for stress relief, proprioceptive input, and 'body tapping' in mindfulness exercises. Bongers come in a pair. Use one, or both together. #758

## Vinyl Bean bags (set of 6)

Set of 6 colourful vinyl bean bags. Size approximately 12x10cm. Ideal for throwing and catching indoors. Great for developing hand-eye coordination and gross motor skills. Also good for use as 'Tapping Bags' for proprioception. #460

## Weighted Baby

These babies are a fantastic item for those who just LOVE babies. The softness of its body and its beautiful face make this doll seem very realistic. The weight is sewn into the body and it is also jointed to allow the limbs to move. The baby comes dressed in a 'onesie' (may differ from the picture). These babies are not washable.

**Weighted Baby**  
**50cm 2.7kg** (shown on left) #795

**Weighted Baby**  
**56cm 3kg** (shown on right) #794

## Large Weighted Dogs

These dogs weigh approximately 4kg and measure approximately 60cm in length. They are filled with poly pellets. Let these dogs become your next lap companion to relax with. These popular dogs are a great addition to any sensory kit.

### Golden Labrador

His face says it all. Friendly and gentle. #512

### Husky

This beautiful dog has slightly longer fur than the Labrador, but he is no less adorable. #605

### Golden Retriever

This fluffy Golden Retriever is in search of a new companion. #676

### German Shepherd

This Loyal dog will always be there when needed. # 677

## Weighted White Tiger Cub

The White Tiger Cub weighs approximately 2kg and measures approximately 45cm in length. Filled with plastic pellets. #839

## German Shepherd

This gorgeous German Shepherd measures approximately 38cm, and weighs approximately 2.0kg. With lovely soft fur and life-like features, this dog makes a great lap companion. Weighted with poly pellets. #600

## Golden Retriever

## Plastic Pellets

Do you want to weight your own animal or make your own weighted blanket? We can supply you with the plastic pellets in order to help you along. Available in 1kg, 2kg and 3kg bags. Sometime pellets may differ in shape and size from those shown.

**2kg** #638

**3kg** #639

## General care information

Lift and carry the animals around their tummy. Do NOT carry them by the leg, ear, head or tail. Due to the weight of the animals, this will weaken the seams and the filling may leak from them.

The animals are surface wipeable. If the animal is filled with poly (plastic) pellets only, then you may be able to spot clean the animal or submerge the soiled part of the animal in water to clean. Only submerge in water if absolutely necessary. Ensure that the animal is well dried before use. Do not wash in a machine. Do not dry clean.

The animals with sand filling can not be washed.

### Shoulder Weight

This Shoulder weight weighs 5kg. The outer measurements are approximately 60 x 60cm (across the shoulders and from front to back). The measurement across the neck is approximately 20cm. Ideal for those who require weight in the shoulder and upper arm areas.

**5kg** #633

**3kg** #686

### Shoulder Weight Cover

A poly cotton protective cover for the shoulder weight. Machine washable. #666

### Lycra Shoulder Wrap

A rectangular lycra shoulder wrap approximately 0.7m x 1.5m. Double thickness. Ideal for applying pressure across the shoulders, back, and upper arms. Colour may vary from that shown. #429

### Finger Loop Hand Weight

A weight that sits on the back of the hand. Ideal for fine motor activities. Secured with Velcro around the wrist and 2 elastic finger loops that fit on the index and ring fingers. Enables the fingers to move freely while giving proprioceptive input. Filled with steel shot. Sold individually. Please contact us should you need other weights/sizes made.

**Small (150g)** #540

**Medium (250g)** #541

**Large (400g)** #542

### Weighted Vest

This vest is made with cotton drill. Fully lined. 12 hidden pockets for weights at the bottom of the vest. Velcro fastenings at the front. Vest weights sold separately.

X-Small- Chest 53-58cm, length (from shoulder) 37cm.

Small- Chest 61-64cm, length (from shoulder) 40cm.

Medium- Chest 66-69cm, length (from shoulder) 45cm.

Large- Chest 73-76cm. Length (from shoulder) 46cm.

### Vest Weights

6 x weights for weighted vest. Made with nylon and steel shot. Do not wash weights. Remove weights before washing vest. Colour of weights may vary from that shown. This product is made in New Zealand.

**6 x 100g weight set** #251

**6 x 200g weight set** #253

**6 x 300g weight set** #259

### Wrap-Around Weights

These weights fit either the wrist or ankle. They are fastened with velcro, fully adjustable, and fit snugly on any wrist or ankle circumference from 12 to 24cm. Sold in pairs.

**2 x 100g** #394

**2 x 200g** #396

### Abiliweights

These 113gram (1/4 lb) weights are soft to touch and feature either large dots or smiles. Fits wrists and ankles from 12cm to 27cm circumference. Secured with Velcro. Sold in pairs. #325

### Weighted Blankets

These blankets are great for those who love the feel of weight without the warmth of multiple blankets/duvets. Dimensions approximately 1 x 1.5 metres. Filled with plastic pellets. Wipable nylon outer. Weight evenly distributed

across the blanket. Covers sold separately.

**7.5 kg Blanket** #495

**10kg Blanket** #465

**12kg Blanket** #464

### 5kg Weighted Blanket

Dimensions approximately 1 x 1.1 metres. Filled with plastic pellets. Wipable outer. #428

### Washable Weighted Blankets

These blankets are made to the same high standard as the nylon wipable blankets, but these are washable. They are made with a sturdy poly cotton drill. With their heavy duty stitching, these blankets are made to last. Hand washing is recommended, as the blankets may be too heavy for some washing machines.

These blankets measure approximately 1m x 1.5m and are filled with plastic pellets. The weight is evenly distributed across the blanket. Covers are sold separately.

**7.5kg Blanket** #468

**10kg Blanket** #653

**12kg Blanket** #610

### 5kg Washable Blanket

Dimensions for this blanket are approximately 1 x 1.1 metres. Filled with plastic pellets. #474

### 5kg Lap duvet

Chill out with a comfy lap duvet. Soft like a duvet but with the added weight component, this 5kg lap duvet is made with a polyester filling and is weighted with plastic pellets. Ideal for a child to rest with or for across the lap of an adult, it measures approximately 85cm x 95cm. Cotton outer. Hand washable. #554

### Sensory Corner Weighted Blankets

- Our blankets are all locally manufactured
- Our weighted blankets measure approximately 1 x 1.5 metres with the exception of the 5kg weighted blanket which measure approximately 1 x 1.1 metres
- Weighted with plastic pellets. The pellets are sewn into cells within the blanket to help give an even distribution of weight across the blanket.
- The inner fabric of the blanket is poly-cotton drill. This fabric was chosen for its strong and durable qualities.
- Each weighted blanket uses approximately 7 metres of fabric (4.5 metres for the 5kg weighted blanket).
- All cells within the blanket are double stitched to help prevent pellet leakage.
- Heavy duty stitching around the blanket helps to ensure that the blanket can withstand the weight of the pellets over time and use.
- The lap pads and lap blankets are weighted with a sand or a combination of sand and steel.

**Would you like to trial a weighted blanket? We have 5kg, 7.5kg, 10kg, and 12kg pellet blankets for trial. Please contact us for further information.**

## Weighted Blanket Covers

These polycotton weighted blanket covers help to protect the blanket and are particularly useful in school and hospital situations. These covers are machine washable. Colours vary.

## Plain poly cotton covers

5kg lap Blanket- #576

5kg Lap Pad- #577

10kg Lap Blanket- #578

5kg Blanket (1m x 1.1m)- #575

**Waterproof Weighted Blanket**

The waterproof blanket is a completely sealed blanket. Features of the outer material:

- closed to bacteria
- gentle on the skin
- latex free
- resistant to blood, oil, urine, and fat
- antimicrobial treated and effective against MRSA
- Washable up to 75 degrees celcius

The waterproof blanket is ideal for all hospital settings including geriatric care and emergency departments. The easy to clean blanket means that the blanket can be available for use without a cover if required.

This blanket is available in 5kg, 7.5kg, 10kg, and 12kg

**Sensory Starter Kit**

The Sensory Starter Kit provides a range of sensory equipment appropriate for use with adults. It is suitable for practitioners working in both inpatient settings and in the community. The suitcase enables the required sensory items to be transported easily, leaving the rest to be stored in the storage container. #616

The Sensory Starter Kit includes the following items\*:

- 1 x 7.5kg Weighted Blanket
- 1 x 5kg Weighted Blanket
- 1 x 5kg Lap Blanket
- 1 x 5kg Weighted Dog
- 1 x 2kg Weighted Dog
- 1 x Lycra Wrap
- 5 x Soft Squeeze Balls
- 6 x Vinyl Tapping Bags
- 1 x Hand Cream (fragranced)
- 3 x Herbal Tea
- 4 x Packets Sweets & Gum
- Straws
- 3 x Bubble Solution
- 4 x Essential Oils (10mls)- Lavender, Bergamot, Orange & Grapefruit
- 1 x Cotton Balls
- 3 x Calm Relaxation CDs
- 3 x Doodle Art/Crossword/Sudoku Books
- Coloured Pencils and Pens
- 1 x Set Small Plastic Containers
- 1 x Suitcase (with wheels)
- 1 x Large Plastic Storage Container

**Novo Cup**

This transparent cup holds 250ml. This cup is good for those who are unable to tip their head back to drink, and can be used with individuals in a lying down position. Can be used with hot or cold liquids. Dishwasher safe. #811

**Flo-trol Vacuum Feeding Cup**

This vacuum feeding cup enables dribble-free drinking without the need to sit up or raise the head. By placing a finger over the vent hole in the lid, the flow of liquid can be controlled. The design reduces the amount of liquid spilled, should the cup tip over. The hole in the mouthpiece is large enough for a straw. The cup holds approximately 230ml of liquid. Cups sold individually. #694

**Nosey Cup**

This plastic cup is ideal for individuals who have oral motor limitations, limited range of motion of the head, neck, or upper extremities. It may also be a useful cup for those who have arthritis.

The cup is designed to allow the user to drink with little or no shoulder flexion, wrist extension or head/neck movement, even if wearing a cervical collar. #696

**Sure Grip Cup**

These polycarbonate cups are easy to hold for those with small or weak hands. They can hold cold or hot drinks, are dishwasher and freezer safe, and are PVC free. The Sure Grip Cup also comes with a drinking lid. Choose the lid with either a small or large opening (as shown in the picture). The lid with the small hole enables easy flow of liquids. The lid with the large hole is great for thick liquids. The valve in the top of the lid makes it easier to drink while lying down. Push with two fingers on the tiny holes on the top of the lid to control liquid flow for those who are unable to suck liquids.

These cups come in either brightly coloured #809, or clear #810.

**Hand to Hand Mug**

The contoured shape of this mug makes it easy and comfortable to grip with one or both hands. As this mug is slightly wider at the bottom, it creates a more stable base, for those who may have a tendency to spill while putting the cup down.

The double-walled design insulates the hands from heat or cold, while maintaining the temperature inside the mug. This lightweight plastic mug looks like a ceramic mug and is top-rack dishwasher safe. 295ml capacity. Lid included. Sold individually. #697

### Ark Drink Bottle Set

This Ark Therapeutic drink bottle set makes drinking easier for beginners and/or individuals with oral motor difficulties. It features a unique valve that controls the direction of fluid - liquid flows up into the straw, but does not flow back down. Simply squeeze the bottle until fluid reaches the top of the straw and release. Fluid will stay at the top of the straw, thereby decreasing the effort required to drink. A full straw also reduces the air ingested, and so users experience less coughing and choking while consuming more fluids. Highly recommended for individuals who tend to aspirate or have difficulties generating and maintaining suction (a weak suck).

viduals who tend to aspirate or have difficulties generating and maintaining suction (a weak suck).

This drink bottle set comes with a 230ml squeezable drink bottle, 1 x one-way valve (to prevent liquid from returning to the bottle once in the straw), 12 x bendable drinking straws, a lip blocker (to prevent the straw from pushing too far into the mouth), 1 x plastic tube (an alternative to the drinking straw).

FDA compliant materials with NO lead, phthalates, PVC, BPA, or latex. #799

### One-Way Straw (set of 10)

One-Way Straws make drinking easier for individuals with a weak suck, oral motor difficulties, and/or problems generating and maintaining suction. Each straw features a built-in valve that controls the direction of fluid one-way - fluid flows up into the straw, but does not empty back into the cup. With fluid remaining at the top of the straw, less air is ingested and less effort is required to drink. Users therefore tend to experience less coughing and choking while consuming more fluids. Because the valves are built-in, these straws provide both convenience for the caregiver and discretion for the user. Set of 10 disposable straws. #762

### Bend It Utensils

Bend this fork or spoon to the left or right easily. Great for people with upper extremity weakness or reduced range of motion. These stainless steel utensils feature built-up handles for people with arthritis, weak grasps or other hand limitations. Their contoured shape makes them easier to hold and use. Features a hole at the end of the handle to attach a strap if required. Top rack dishwasher safe. Sold individually.

**Bend It Fork** #781

**Bend It Tablespoon** #782

### Sip Tip Cup (with Select Flow Valve)

This cup makes drinking easier for individuals who have difficulty generating and maintaining suction. An individual can either suck from the straw themselves, or you can assist by "pumping" the fluid up the straw with the flexible lid. Simply cover the vent hole with your finger and press down several times until the liquid reaches the desired height. The Select-Flow Valve will keep the straw full of fluid, thereby reducing the air ingested and the effort required for each sip (notice the juice staying at the top of the straw in one of the images above). The valve also slows the flow of fluid, which allows for more control over the quantity of fluid taken with each sip and helps to ensure that fluid is deposited in the front of the mouth.

This pack comes with a 230ml tumbler, a spill resistant lid, a select-Flow valve, 10 x straws, and a free lip blok (to prevent the straw from pushing too far into the mouth). #761

### Built Up Utensil Set

Utensils with easy-grip larger handles, with hole at one end for strap if required. Complete set of cutlery: knife, fork, spoon, and teaspoon. #780

### Gripables Cutlery Set

Using utensils is fun and easy with Gripables, Comfortable Cutlery. Each set includes a fork, knife and spoon with an easy to grip, notched, soft plastic handle.

This cutlery set is great for kids and is dishwasher safe.

#437

### Silicone Placemat Plate

These Silicone placemats have an in-built, high-sided plate. They are BPA free and are made with food grade silicone. The placemat sticks firmly onto a smooth table top or tray table, which helps prevent the frustration and possible danger of sliding crockery.

Available in either orange or red, these bright placemats help provide a colour contrast to help individuals with visual difficulties see food items. The central pressure valve helps release the placemat from the table after use. Measurement of plate approximately 24cm x 14.5cm. Measurement of entire placemat approximately 24.5cm x 37.5cm. Height of plate approximately 2.5cm. #842

### Spill-proof Cup Cover

Transform any tumbler into a spill-proof cup. The Spill-Proof Cup Cover is made with food grade silicone. It is BPA, PVC, latex and phthalate free. This cover can be used to make a sipper cup, or a straw can be placed in the top. Suitable for cups with diameter between 5cm-8cm. Colour may vary from that shown. Sold individually. #845

### Long Reach Toe Nail Cutter

The Long Reach Toe Nail Cutter's extended reach reduces the need for bending whilst the contoured handle with "soft-feel" finger contact areas gives comfort and control of the cutting action. The hygienic stainless steel blade is slightly serrated to grip the nail and angled to keep the wrist in a natural position. #755

### Partitioned Scoop Dish

This Plate has deep compartments to keep food separated. Two smaller sections hold 200ml. The larger one has a 200ml capacity. High compartment walls may be used to push food onto forks and spoons. Stackable with clear plastic cover for easier transporting and storing of food. 20 cm diameter. Dishwasher and microwave safe. #779

### Mini Easi-Grip Scissors (Adult)

These are a Loop handled self opening pair of scissors. They are similar to the Mini Easi-Grip Scissors, but these have a pointed, rather than a rounded blade. The size and design of the Adult Mini Easi-Grip Scissors is ideal for those with reduced hand function. The small size, makes the scissors easy to grip and close, and they are easy to store and carry.

The pointed blade is great for fine or detailed cutting (e.g. craft or nail cutting), and the blade guard is a very useful safety feature. #743

### Table Top Nail Clipper

This Table Top Nail Clipper has been designed to assist those with limited hand function to cut nails. Mounted on a plastic base with non-slip feet for stability the nail clipper also benefits from a wide moulded pad with "soft-feel" finish to give greater comfort and excellent leverage. #756

**0800 FIDGET (0800 34 34 38)**

Page 33

**Card Holder (set 4)**

Ideal for use by people who have poor grip, the playing card holder consists of two plastic discs held together by a spring. Once sorted, the card holder will then grip the cards throughout the game.

Once cards have been dealt, stack them together. Next insert between the two blue wheels. Using light pressure on the blue wheels, rotate them in opposing directions. The card holder will display the cards in a perfect fan. #757

**Cap Off**

Unscrewing the lid off bottles can be difficult for those who have weak and painful wrists. The Cap Off helps to make this job easier by gripping firmly on the cap. The handle makes it easier to loosen the lid. Cap Off can be used for metal or plastic caps. #812

**Gripoballs (Set 3)**

Gripoballs are a PVC balls which have a slot in each side to enable individuals to increase the size of handles or pens. They are easily portable and can be transferred to different tools easily. Measures 4cm in diameter. Weight can also be added easily by inserting the Gripoweights (weighing 10grams each- sold separately from the Gripoballs).

**Gripoballs (set 3)** #805

**Gripoweights** #806

**One Hand Box (Set 3)**

The One Hand Box is perfect for those with weak hands. To open, simply press on the little spot on the rim of the lid with one finger, or the palm of your hand. To reseal, press the centre of the lid.

The boxes come in a set of 3. Each set has a 750ml, 1.35litre, and a 2 litre container included. The containers are dishwasher safe. Safe for food storage. Ideal for puzzle pieces, beads and other small items. #808

**Gripofix**

Gripofix is a strap to enable tools to be attached to the hand. The Gripofix is latex free and measures 33cm. It can be easily cut to adjust the length if required. #807

### Independence Cups

These cups are designed for individuals who experience difficulties with drinking independently, including motor difficulties such as limited control and movement of the arms and wrist, and difficulties with head and neck movement.

Each cup includes two lids that help reduce spilling when the cup is tipped over. One lid has a spout making it easier for those with limited head and neck movement to take liquid from a sitting or reclined position. The second lid has a hole in the top that is large enough for a straw (if required). Both lids have an air vent hole, which can be covered to control the flow of liquid. This is useful for individuals who experience difficulties controlling the amount of liquid taken into the mouth, and might be useful for those who have issues with swallowing.

The Independence Cups are available in:

**Tumbler** (no handles) #698

**1-Handle** #701

### Easy Squeezy

The Easy Squeezy enables people with weak hands to squeeze out dish cloths with ease. Simply push the wet cloth into the top of the Easy Squeezy cylinder. Slide the inner tube into the cylinder and firmly press. This product can also be useful for those with the use of one hand as well. #815

### Terms and Conditions

We will courier goods as soon as possible after payment in full, for those goods has been made. Delivery will generally take 2 -5 working days depending on what time your order was placed and where it needs to be delivered to. Sensory Corner will not be responsible for any delays in delivery outside of its reasonable control.

### Delivery Charges

Nationwide (not including rural delivery areas) \$5.00

National Rural (all rural delivery areas) \$12.00

Pick up available from 15A/169 Harris Road, East Tamaki, Auckland is available by prior arrangement.

All prices in our catalogue include GST. We aim to keep the prices of products and delivery as stated in the catalogue. However, this is not always possible. Product price changes and delivery charges may occur during the year without notice.

### Returns Policy

If products are faulty or damaged (other than by damage or faults caused by your use), we will (at Sensory Corner's discretion) refund you the purchase price (less delivery costs) or exchange the product provided it is returned within 10 days. Refunds (should they apply) will be issued by either a credit to your credit card or by sending you a cheque. No refund or exchange will be processed before return of the relevant product.

Sensory Corner must be advised of any issues with the product/s immediately. Return delivery fees are the responsibility of the customer returning the product.
